About CFCI

On November 3, 2020, the voters of Los Angeles County approved Measure J, which dedicated no less than 10% of the County's locally generated unrestricted funding to address the disproportionate impact of racial injustice through community investments such as youth development, job training, small business development, supportive housing services and alternatives to incarceration. The Measure was met with legal objections challenging its constitutionality.

On November 10, 2020, recognizing the historical significance of Measure J, the LA County Board of Supervisors decided to continue a county-led effort that would move forward with an annual budget allocation of $100 million to transform how criminal justice and community investment coexist in LA County.

On August 10, 2021, the Board transformed the Measure J Reimagine LA Advisory Committee into the Care First and Community Investment Advisory Committee (CFCI Advisory Committee).

That same day, the Board adopted the Care First Community Investment spending plan, an unprecedented $187.7 million spending package to advance its care first, jails last vision with a series of direct community investments and funding for alternatives to incarceration—accelerating the transformative process of creating a more just and equitable Los Angeles County for all residents. The year one spending plan takes the innovative step of leveraging one-time funding from the American Rescue Plan($87.7 million) to ensure a strong foundation as programs ramp up and complete funding levels are reached by 2024.

As the CFCI Advisory Committee embarks on its year two spending plan, they are committed to leading through community-driven efforts. The committee will engage in a series of community activities and approaches from April to June 2022 to incorporate as much community involvement as possible in the year two spending plan.

FAQ on CFCI Listening Sessions

LOS ANGELES COUNTY
ATI OFFICE
ATI YJR ACR CFCI
Alternatives to Incarceration
"Care First, Jails Last"

What is a Listening Session?

The Listening Session is an opportunity for the community to provide recommendations for the Los Angeles County Care First and Community Investment (CFCI) Advisory Committee's Year 2 Spending Plan. The listening session will focus on gathering alternatives to incarceration while focusing on community-led recommendations on priority areas and general thoughts to guide the Committee's creation of its year two spending plan.

Why is attending a Listening Session important?

The Listening Session is a necessary approach and mechanism by which the CFCI Advisory Committee will engage community-driven perspectives toward building a framework to prioritize putting care first, not jails. The ideas, thoughts, and experiences will aid in providing programs aimed at benefiting chronically under-resourced communities to address the adverse effects of a racially driven criminal justice system. This effort will redefine the role our criminal justice system plays in the lives of disadvantaged communities.

Who is organizing the Listening Session?

The Listening Sessions are being organized by the Los Angeles County CFCI Advisory Committee to engage stakeholders, community, residents, and community-based partners.

FAQ on Listening Session

Where can I find out more information about the Listening Session?

More information on Listening Sessions may be found here.

What is the outcome of the Listening Session?

Thoughts, ideas, and experiences gathered through the community engagement will be reviewed and evaluated by the Advisory Committee. After which, the Committee will put together a spending plan incorporating valuable input from the community and other outreach activities, including a community survey that will open from April through June. For more information on all the community activities, please visit the CFCI Community Engagement webpage.

Is the Listening Session the only way I can submit my input to the CFCI Advisory Committee?

No. The committee will roll out several community engagement activities from April to June, including a community project recommendation form and information sessions. Stay tuned. These activities will allow the CFCI Advisory Committee to receive input on CFCI's priorities, including alternatives to incarceration and direct community investments.

- Passed by LA County voters November 3, 2020
- Board Motion November 10, 2020 establishes "inclusive and transparent process on allocation of funds," supported by Advisory Committee and subcommittees

2021-2022 CFCI Spending Plan

Care First Community Investment Spending Plan (also known as Measure J) invests an unprecedented $187.7 million with innovative programs that serve our chronically under-resourced communities to address negative outcomes caused by racially driven criminal justice inequities and long term community economic disinvestment

Measure J Funding Areas

Direct Community Investment

- Youth Development & Education
- Workforce Development
- Small Business Dev for Minority-owned Businesses
- Rental Assistance & Housing Supportive Services
- Capital Funding for Housing

Alternatives to Incarceration

- Pre-Trial Non Custody Services & Treatment
- Community-Based Health Services
- Non-Custodial Diversion & Reentry Programs
- Community-Based Restorative Justice

Outreach Initiatives

- Launch Project Recommendation Form (PRF)
- Host Information Sessions on PRF

Approach: digital campaign and press outreach

- Launch Community Feedback Survey
- Launch Community Listening Sessions

Approach: targeted canvassing, digital campaign and press outreach

In parallel, County departments also preparing project recommendations to submit to the CFCI Advisory Committee
