## What is STEP?

The Steps To Excellence Project (STEP) is Los Angeles County's first child care quality rating and improvement system, designed for child development centers and family child care homes caring for children ages 0-5.

The purpose of STEP is to:

Provide parents with clear, concise information on the quality of individual child care settings

Create incentives and supports for programs to meet and maintain higher program standards

Distinguish programs that are meeting these higher standards

Provide benchmarks to determine if the quality of care in individual programs or communities is improving over time

STEP was developed by the Policy Roundtable for Child Care and began operating in July 2007. It is administered by the Los Angeles County Office of Child Care, located within the Service Integration Branch of the County of Los Angeles Chief Executive Office. Our office can be reached by telephone at (213) 974-4103 or on the Web at [www.childcare.lacounty.gov](http://www.childcare.lacounty.gov).

## What services does STEP offer?

STEP is a voluntary program that offers child development centers and family child care homes three core services: 1). quality improvement trainings; 2). quality improvement Mini Grants; and 3). a free quality assessment visit.

Quality assessment visits are scheduled to begin in January 2009 and will examine the following six key areas of a child care program's operation:

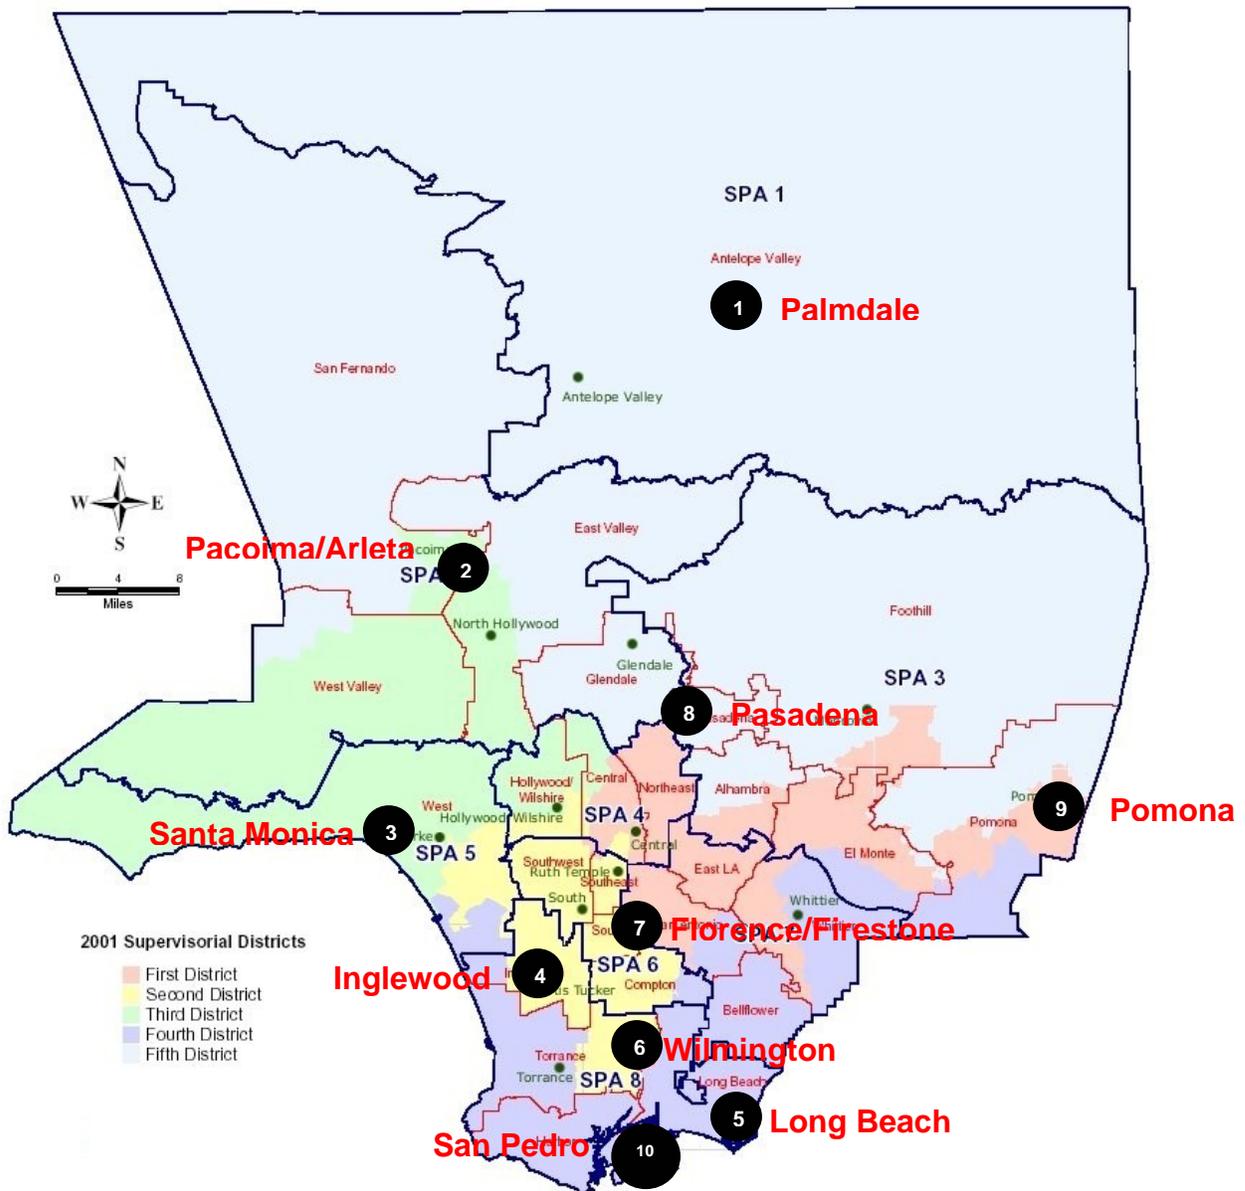

1. Regulatory Compliance
2. Teacher/Child Relationships
3. Learning Environment
4. Identification and Inclusion of Children with Special Needs
5. Staff Qualifications and Working Conditions
6. Family and Community Connections

These areas have been shown by research and best practice to impact the quality of care, children's school readiness and child outcomes.

**This directory lists child development centers and family child care homes that have volunteered to participate in STEP as of September 2008.** Our office extends its thanks to each program for their initiative and desire to provide high-quality early education to the children in their communities.

## STEP Pilot Communities Map

Between July 2007 and June 2010, STEP is being piloted in ten communities across Los Angeles County.
