2. Pest Exclusion

Pest Exclusion – High Risk

Authority: Mandated program – California Code of Regulations (CCR) Section 3160.

Program Result: Provided protection for agricultural and natural resources by effectively enforcing both State and federal regulations established against the introduction and spread of exotic pests and diseases. County agricultural inspectors and dog teams sought out and, at need, interdicted unauthorized and non-compliant agricultural shipments at the Los Angeles Airport and other high-risk facilities, such as postal carriers, express carriers, air and sea ports, and produce specialty markets. Shipments infested with quarantine pests and/or in violation of established quarantines are required to be treated, returned or destroyed under the supervision of County agricultural inspectors.

Phytosanitary Certification – Low Risk

Authority: Mandated program – CCR Section 5202.

Program Result: Provided an effective service for the nursery and produce industries by certifying that their highly perishable shipments complied with the entry requirements of other states and countries through the use of Phytosanitary certifications. The Low Risk program continued to promote commerce, protect employment, and support the ability of the industry to export agricultural products domestically and internationally.

Agricultural Commissioner/Weights and Measures

Percent of Grade III attorneys whose annual “WDI” score does not exceed 8.0 ⁽¹⁾	79%	77%	78%	78%

Number of new felony filings	10,698	10,321	10,560	11,000
Total number of felony workload	14,228	15,743	16,007	17,000

Total number of misdemeanor workload	21,142	23,127	22,608	23,000
Grand total number of adult workload (felony and misdemeanor)	35,370	38,870	38,615	38,000

Explanatory Note(s):

- (1) The “WDI” is derived from the following factors: 1) the quantity and relative difficulty of cases carried by an attorney from month to month; 2) the quantity and relative difficulty of new cases assigned to an attorney each month; 3) the quantity and relative difficulty of court appearances made by an attorney each month; and 4) the quantity and relative difficulty of trials performed by an attorney each year.
- (2) Measures the Department’s ability to accept appointment in cases where a client qualifies for the Alternate Public Defender’s (APD) indigent defense services. Any measure below 100 percent represents a Service Availability Deficit (SAD) and indicates insufficient staffing to meet demand for service.
- (3) The Department’s recommended minimum continuing legal education training goal is a program designed to encourage attorneys to meet their California State Bar MCLE requirement under more stringent guidelines specifically tailored to the demands of a criminal defense specialist working in a public defender’s office. For an attorney to meet this goal they must attend and complete, annually, a minimum of six hours of “live” MCLE-approved course work presented by either the APD and/or the Public Defender. This course work may be part of, or in addition to, the State Bar’s mandated 25 hours of training over a 3-year period (no annual minimum hours required). By encouraging attorneys to: 1) more evenly spread their MCLE training over the State Bar’s 3-year compliance period; 2) attend actual seminars instead of reviewing taped programs; and 3) focusing over two-thirds of their coursework on training specifically designed for public defenders, the APD will enhance the level of representation provided to all clients.

Total number of hours of MCLE targeted criminal defense training as part of, or in addition to, their 3-year/25-hour California State Bar MCLE requirement ⁽³⁾	258	212	265	250

Explanatory Note(s):

- (1) The “WDI” is derived from the following factors: 1) the quantity and relative difficulty of cases carried by an attorney from month to month; 2) the quantity and relative difficulty of new cases assigned to an attorney each month; 3) the quantity and relative difficulty of court appearances made by an attorney each month; and 4) the quantity and relative difficulty of trials performed by an attorney each year.
- (2) Measures the Department’s ability to accept appointment in cases where a client qualifies for the APD’s indigent defense services. Any measure below 100 percent represents a SAD and indicates insufficient staffing to meet demand for service.
- (3) The Department’s recommended minimum continuing legal education training goal is a program designed to encourage attorneys to meet their California State Bar MCLE requirement under more stringent guidelines specifically tailored to the demands of a criminal defense specialist working in a public defender’s office. For an attorney to meet this goal they must attend and complete, annually, a minimum of six hours of “live” MCLE-approved course work presented by either the APD and/or the Public Defender. This course work may be part of, or in addition to, the State Bar’s mandated 25 hours of training over a 3-year period (no annual minimum hours required). By encouraging attorneys to: 1) more evenly spread their MCLE training over the State Bar’s 3-year compliance period; 2) attend actual seminars instead of reviewing taped programs; and 3) focusing over two-thirds of their coursework on training specifically designed for public defenders, the APD will enhance the level of representation provided to all clients.

Explanatory Note(s):

- (1) Measure is not reflective of special mail runs, which are held for additional processing by issuing department/program (i.e., boarding homes and institutions, uniform allowance, etc.).
- (2) B-Notices, which are issued for incorrectly entered 1099 forms, are usually received in October for the prior tax year.
- (3) The tax year (TY) follows the calendar year, which differs from the fiscal year used in the Performance Measures.
- (4) In addition to the U.S. Postal Service address forwarding service, applicants for direct deposit have been increasing, which will reduce the number of warrants being mailed. This reduction will impact the number of Post Office returns thereafter.
- (5) Participation in the Direct Deposit program has increased due to the implementation of the Vendor Self Service program, the efforts made to solicit participation by the Direct Deposit Unit, and the release of the Direct Deposit website streamlining the application process. The Direct Deposit Mandate will increase vendor and property tax direct deposit payments.

5. Countywide Payroll Services

Authority: Mandated program – United States Government Code Title 26; California Government Code Sections 11550-11563, 28101-28160, 30051-30056, and 30061; and County Code Titles 5 and 6, and Title 2, Section 2.10.020.

Explanatory Note(s):

- (1) At the beginning of FY 2018-19, the Auditor-Controller presented new Key Performance Indicators (KPIs) to the Audit Committee, which adopted them. These KPIs provide more meaningful measurement of performance targets that are closely linked to the operational outcomes. We have updated our Performance Counts measures to include select KPIs, for which we do not have historical data. We will incorporate the data for these KPIs in upcoming Performance Counts reports as it is aggregated.
- (2) In general, the percentage of cases closed is increasing as a result of departments' responsiveness to a Board directive to focus on the resolution of cases open more than one year. We anticipate departments will generally sustain their efforts to disposition all cases as quickly as feasible.
- (3) Completed investigations include cases that are substantiated, not substantiated, or closed/not investigated after completion of a preliminary review.
- (4) The actual number of employees trained decreased as fraud awareness training was not held in FY 2018-19. We plan to conduct fraud awareness training in the current fiscal year.

- (4) Lower percentage attributable to the following factors: a) Since migrating from physical servers to eCloud virtual servers and the Internal Services Department (ISD) Countywide E-Mail System (CES), some issues require ISD involvement, which lengthens response time; and b) one staff reassigned to assist on high priority Office 365 assignments.
- (5) Starting in FY 2018-19, the measure included the helpdesk tickets for the Mileage Authorization and Reimbursement System since this function was transferred to the IT Network and PC Support Services group.

The Abolish Chronic Truancy (ACT) program enforces compulsory education laws by focusing on parents' responsibility and accountability to get children to (and keep them in) school. The Juvenile Offender Intervention Network (JOIN) program provides swift intervention (before court filing) through an accountability-based program for juveniles ages 10-17 who have committed a fileable, non-violent, first-time offense. The multi-agency Code Enforcement Unit, active since 2005, has made it possible for County inspectors to gain entry into previously inaccessible properties, thereby allowing inspectors to issue citations, and/or refer cases to the District Attorney's Office for investigation, remediation and/or prosecution.

Program Result: The ACT Program has improved school attendance for elementary school age children by an average of eight school days per participating child/per school year. JOIN has decreased the number of Juvenile court cases countywide and has successfully diverted youth into a program of supervision and accountability with very low recidivism rates. Code Enforcement programs have increased remediation of code violations by property owners in unincorporated areas of Los Angeles County.

District Attorney

DEPARTMENTAL PERFORMANCE MEASURES

Explanatory Note(s):

- (1) Includes the Los Angeles City Attorney's Victim Assistance program.
- (2) The increase in the number of hearings is due to several factors: a) increased number of commissioners on the Board of Parole Hearings to accommodate additional hearings; b) In Re Edwards, 26 Cal App. 5th 1181 (2018) established case law which held that the passage of Proposition 57 meant that all nonviolent state prisoners, including "Third Strike" offenders, are eligible for parole consideration upon completion of the full term for their primary offense; and 3) increased number of commutations from the Governor's Office.

Ford Theatres

DEPARTMENTAL PERFORMANCE MEASURES

1. John Anson Ford Theatre (Ford)

Authority: Non-mandated, discretionary program.

The Ford is one of the oldest and historically significant performing arts venues in Los Angeles (LA). Located in a 32-acre LA County regional park, the Ford is operated by the County through a partnership between the Department of Parks and Recreation and the Ford Theatre Foundation, its nonprofit steward. It presents a diverse roster of events representing music and dance styles reflective of the communities that comprise the County. Ford programs nurture artists, arts organizations and audiences through initiatives designed to encourage participation in the arts.

Program Result: County residents receive access to affordable, high quality performing arts programming that reflects the cultural and geographic diversity of the County. By animating and activating the historic amphitheatre of a County park, the Ford Theatres contributes to a more vibrant LA County by supporting artistic expression and innovation and by providing access to exemplary arts and culture experiences representative of our multifaceted communities that deepen human connections and broaden cultural understanding.

Performance Measures	Actual 2016-17	Actual 2017-18	Actual 2018-19	Projected 2019-20
Indicators				
Venue utilization as a percentage of days available during the summer season ⁽¹⁾	83%	93%	69%	83%
Average attendance per event as a percentage of capacity	64%	66%	61%	56%
Operational Measures				
Number of onsite events ⁽²⁾	57	68	69	50
Number of onsite season attendances ⁽²⁾	32,403	39,068	28,652	22,790

Number of cultural traditions presented	30	35	37	37
Number of off-site events ⁽⁴⁾	24	22	26	13

Explanatory Note(s):

- (1) During the season, the Ford is typically activated with performances, rehearsals, residencies and engagement events six days every week from May through October. Venue utilization is calculated using a six-day work week. In FY 2018-19 the Ford presented one event in the month of April, outside the normal season of May through October, which greatly reduced the total venue utilization percentage for the year.
- (2) Number of onsite events in FY 2016-17 was impacted by the Ford construction project. The building schedule reduced the length of the season which reduced the number of events that the Ford could present, lowering season attendance. FY 2017-18 represents nearly a full season of events from July 14, 2017 through June 30, 2018. FY 2018-19 represents a complete season, with events from July 1, 2018 through June 30, 2019. FY 2019-20 represents events from July through December 2019, as the Ford will be programmed by a new operator in 2020 and the current staff is unable to predict their anticipated number of events planned for the year.
- (3) Ford events nearly always include a more accessibly priced tier of tickets (\$25-\$35) and will sometimes offer a VIP tier at a higher price point. More accessibly priced events in FY 2017-18 and FY 2018-19 lowered the average ticket price. The Ford also continues to offer a series of free participatory events and low-priced family programming that is free for children and \$5 for adults to ensure that County residents have access to quality performing arts programming.
- (4) Supported through a grant from the Irvine Foundation, the Ford has presented its JAM Sessions programming and offsite arts engagement events in community hubs since 2011. These events are free and are curated in partnership with a host organization. The Community JAM Sessions serve between 2,000-4,000 participants each season. Number of events fluctuates year-to-year with the level of funding received to support this program, as well as with capacity of community partners to host events. FY 2019-20 represents only those off-site events programmed from July through December 2019.

Health Services

DEPARTMENTAL PERFORMANCE MEASURES

1. Health Services

Authority: Mandated programs under California Welfare and Institutions Code Section 17000 and California Government Code Sections 26600-26777, and non-mandated, discretionary programs.

Program Result: The Department of Health Services (DHS) provides high-quality, patient-centered, cost-effective programs and services to Los Angeles County residents through direct healthcare services at DHS facilities and the County's correctional system, and through collaboration with community and university partners.

Due to the recent Board-approved consolidation of health and mental health services provided in the County's correctional system under the Integrated Correctional Health Services (ICHS) unit in DHS, the Department is currently assessing the most appropriate method to integrate previously-used performance measures for these services into the Department's current measures and will provide ICHS data in the near future.

Medical Examiner – Coroner

DEPARTMENTAL PERFORMANCE MEASURES

1. Administration

Authority: Mandated program – State Chapter 498/77 Coroner's State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (California Government Code Sections 27460 – 27540, 68096.1, and 68097, and County Code, Chapter 2.22, Sections 2.22.010 to 110).

The Public Services Division provides and maintains decedent case files and processes document requests for reports for internal staff, outside agencies, and the public. The Division also performs the following functions: processes and monitors billing for transportation services, processes all incoming Medical Examiner case-related subpoenas, and releases decedent personal property.

Program Result: Processing 75 percent of 6,093 Coroner report requests within 30 calendar days from the date of the request contributes to the Department's success in meeting its legal obligations and maintaining an excellent level of customer service. At 75 percent, this indicator reflects the Medical Examiner-Coroner's commitment in providing the findings of the Department to law enforcement agencies requiring the report for criminal proceedings, to families who need the report for business or personal reasons, and to the public requesting the information under the Public Records Act or Freedom of Information Act.

2. Operations Bureau – Medicolegal Death Investigations – At-Scene and Hospital Deaths

Authority: Mandated program – State Chapter 498/77 Coroner's State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (California Government Code, Sections 27460 – 27540, 68096.1, and 68097, California Health and Safety Code 7100 - 7114, and County Code Chapter 2.22, Sections 2.22.010 to 110).

The Division is responsible for providing 24/7 field investigator response to at-scene death investigations and conducts hospital death investigations throughout the County of Los Angeles. Staff takes the initial and preliminary information regarding certain deaths that are reportable by State law to be investigated by the Coroner of the County. The medicolegal death investigation is performed by sworn staff who investigate the death, interview witnesses, take photographs, and collect evidence for use in criminal and civil matters, identify deceased persons, and notify the legal next of kin.

Program Result: The decedent's family, the public, the media, law enforcement agencies, and court system have access to timely, accurate, and complete death investigations.

3. Forensic Science Laboratories

Authority: Mandated program – State Chapter 498/77 Coroner's State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (California Government Code Sections 27460 – 27540, 68096.1, and 68097, and County Code, Chapter 2.22, Sections 2.22.010 to 110).

The Division provides essential forensic services to the Department. The toxicology laboratory analyzes postmortem biological specimens for the presence of drugs and other poisons. These analyses are used by DMEs to help determine the cause and manner of death, and are also used by decedent families, law enforcement, insurance companies and the courts. Department criminalists are on call 24/7 to respond to crime scenes for the purpose of physical evidence identification, collection, documentation and preservation. Laboratories also provide gunshot residue testing for the Department as well as for law enforcement agencies throughout California. Laboratory services also include tissue processing for microscopic evaluation by the DME and tool mark analysis for the DME and outside law enforcement agencies. The Forensic Laboratories are also responsible for maintaining all physical evidence on Medical Examiner cases in a manner that ensures the analytical integrity and the chain-of-custody documented from the time of collection to final disposition. Evidence control is based on departmental policies and procedures as well as guidelines set forth by the American National Standards Institute-American Society for Quality (ANSI-ASQ) National Accreditation Board (ANAB) whose accreditation the Department holds.

Program Result: The Department's DMEs, outside investigating agencies, and the judicial system will receive accurate, timely, and effective laboratory reports. Physical evidence controlled by the Forensic Science Laboratories is handled so that the integrity and chain-of-custody is maintained and documented. The DMEs, families of decedents, outside investigating agencies, and the judicial system receive state-of-the-art toxicology analyses as well as expert interpretation of those analyses.

Number of tests per criminalist	6,355	4,462	4,847	4,667

Explanatory Note(s):

- (1) In FY 2016-17, the laboratory had ten criminalists conducting toxicology tests; and twelve (12) criminalists conducting tests for both FYs 2017-18 and 2018-19 plus assistance from two laboratory technicians (14 total staff in the toxicology laboratory). The increase in trained staff led to the increased total number of toxicology tests performed in the laboratory. The Forensic Science Laboratories Division is currently fully staffed.
- (2) The number of cases handled by criminalists in FY 2018-19 requiring a written report includes all field criminalistics written reports (59 total reports) in addition to in-house and outside gunshot residue (38 inside GSR reports and 203 outside GSR reports), tool mark (8 reports), and medical evidence analyses (22 reports) completed written reports.

4. Forensic Medicine

Authority: Mandated program – State Chapter 498-77 Coroner's State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations; Unidentified Bodies, Human Remains (Government Code Sections 27460 to 27540, 68096.1, 68097; County Code Chapter 2.22, Sections 2.22.010 to 110).

The Forensic Medicine program is responsible for the professional medical investigation and determination of the cause and manner of each death handled by the Department. Forensic pathologists evaluate sudden unexpected natural deaths, and unnatural deaths such as those from firearms, sharp and blunt force trauma, etc. In addition, physicians are frequently called to court to testify on cause of death and their medical findings and interpretations, particularly in homicide cases.

Program Result: The families of decedents, outside investigating agencies, and the judicial system will have access to timely, accurate and complete autopsy reports and final death certificates after the cause and manner of death have been determined.

5. Operations Bureau – Forensic Services Division – Decedent Transportation

Authority: Mandated program – State Chapter 498/77 Coroner's State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (Government Code Sections 27460 to 27540, 68096.1 and 68097. Health and Safety Code 7100 to 7114, and County Code Chapter 2.22, Sections 2.22.010 to 110).

The Forensic Services Division is responsible for providing 24/7 decedent transportation from death scenes and hospitals to the Forensic Science Center for the County. The Forensic Services Division is also responsible for crypt management services such as the accurate marking of decedents with identification tags, the processing of each individual decedent's paperwork, and the proper storage of the decedent's body while maintained at the Forensic Science Center. Lastly, the Forensic Services Division is responsible for the release of the decedent from the facility to a private mortuary or the County morgue for final disposition.

Program Result: The families of decedents have access to the timely transportation of their deceased loved ones to the Forensic Science Center so that case examinations can be scheduled and the release of the body to a private mortuary can be done as soon as possible. The families of decedents also have a well-managed, well maintained storage facility for their deceased while they await examination and subsequent release.

Average number of bodies stored weekly	409	415	391	380

Explanatory Note(s):

- (1) The Forensic Services Division staffing varies significantly due to injury on duty (IOD), long-term illness, jury duty, vacation, and other vacancies during any fiscal year. Staffing levels affect the support that can be provided to the Investigations Division and private mortuaries and ultimately, the workload achieved.

6. Forensic Medicine – Photo and Support Division – Autopsy Support Services

Authority: Mandated program – State Chapter 498/77 Coroner's State Hospital Patient Death, Chapter 284 Statutes of 2000 Postmortem Examinations: Unidentified Bodies, Human Remains (Government Code Sections 27460 to 27540, 68096.1 and 68097. Health and Safety Code 7100 to 7114, and County Code Chapter 2.22, Sections 2.22.010 to 110).

The Forensic Photo and Support Division is responsible for providing technical support services in the form of autopsy assistance, radiographs, photography and specialized graphics support to DMEs, prior to, during, and after postmortem examinations. Additionally, they provide field capable photographers to document high-profile death scenes and major incidents.

Program Result: DMEs are given adequate and timely technical support to complete autopsy services as well as radiology and photographic support. Law enforcement agencies and the judicial system are provided with photographs, x-rays and special graphics production for use in criminal and civil courtroom testimony. Families are provided with a measure of closure with respect to the death of their loved one.

Explanatory Note(s):

- (1) As of 2017-18, cases are no longer designated as “special processing,” as that term had been inconsistently applied and/or referenced.
 - (2) As of 2017-18, this measure was calculated as all cases, not “special processing” cases. Photographs are taken in every Medical Examiner case.
 - (3) As of 2017-18, calculations are based on the number of cases brought to the Forensic Science Center, rather than the total number of Medical Examiner cases. Technicians handle only those cases that come to the FSC.
 - (4) As of 2017-18, this number represents the total photographs uploaded to the Electronic Case File System (ECFS).

Explanatory Note(s):

- (1) Data for FY 2016-17 based on International Classification of Disease (ICD) ten codes as compared with ICD nine codes for previous years. Data reflects clients served in Short Doyle Medi-Cal outpatient facilities in FY 2016-17. Data is sourced from two systems: County Department of Mental Health (DMH) Integrated Behavioral Health Information System (IBHIS) and the legacy DMH Integrated System (IS). Throughout this 3-year period, various DMH providers were transitioning from the IS to IBHIS. Since data capture related to co-occurring disorders differs to some degree between the two systems, some of the year-to-year variance observed is likely attributed to data capture rather than true changes in prevalence.
- (2) This section has been removed as DMH has moved from the understanding of an "Open Case" is a legacy construct and no longer applies.
- (3) Other field services like Full Services Partnership and Assertive Community Treatment (ACT) will be providing crisis intervention and 24/7 services. Psychiatric Mobile Response Teams (PMRT) will be providing intervention after other field services determine the needed requirement for 5150.
- (4) Measures reflect both daytime and after hours PMRT response times.
- (5) Cost of outpatient care and average annual cost per outpatient client items reference mode '15' claims only. Outpatient client is defined as having received outpatient, fee-for-service outpatient or Administrative Service Organization (ASO) network outpatient services.
- (6) ASO network outpatient services is defined as coordination and management of specialty mental health services rendered by providers in ASOs network to Early and Periodic Screening, Diagnosis, and Treatment Medi-Cal eligible children and youth placed outside of the County.

2. Residential Treatment

Authority: Non-mandated, discretionary program.

Aids in reducing, through the camp program, the incidence and impact of crime in the community by providing a therapeutic residential experience that introduces skill building and enhanced literacy/vocational opportunities. The camps provide a valuable, intermediate sanction alternative to probation in the community or incarceration in the California Department of Corrections and Rehabilitation. The program provides intensive intervention in a residential setting over an average stay of six months for youth committed by the Juvenile Court. Each minor receives a multidisciplinary assessment that includes mental health, health, educational, and family assessments that allow for treatment to be tailored to meet individual needs. The camps provide structured work experience, vocational training, education, tutoring, cognitive-based interventions, athletic participation, and various prosocial and family engagement activities. The goal of the program is to provide skills that successfully transition minors back to the community and results in a crime-free productive lifestyle.

4. Juvenile Suitable Placement

Authority: Mandated program with discretionary services level – California W&I Code Section 16516.

Provides, through suitable placement, a dispositional option for the Juvenile Court for minors whose delinquent behavior may be explained by a contributory family environment and/or emotional/psychiatric problems. Most suitable placement minors are removed from their homes and placed in a safe environment (group home, psychiatric hospital, Dorothy Kirby Center, etc.) pending resolution of the minor's issues. DPOs work with the minor and the family to identify needed services and prepare case plans to assist them with accessing the services. Through monitoring the minor's progress, the DPO is able to determine what long-term living arrangement would be in the best interest of the minor and develop/implement a permanency plan to return the minor to a safe and stable environment, such as reunification with family, emancipation, placement in a relative/non-relative home, or long-term foster care.

Program Result: Youth are provided with the ability to be in an environment best suited, when ordered out-of-home placement by the Court.

- (1) Indicators are consistent with the program's State and/or federal guidelines and funding agencies and measures are currently calculated using data from the CAIR. Because participation in CAIR is not universal, the coverage levels reported may not be representative of all children living in Los Angeles County. Additionally, data for 2017-18 is not yet available.
 - (2) Data source was the annual Kindergarten Immunization Assessment conducted by the California Department of Public Health (CDPH) to monitor compliance with school immunization laws in all private and public schools in Los Angeles County.
 - (3) Partial data for 2017-18 as this is a new measure started in 2018.
 - (4) Tuberculosis Registry Information Management System collects calendar year data that has a one to two-year data lag.
 - (5) Calendar year data.

Data set compiled from Los Angeles County Public Works' Collision Database accessed October 15, 2019.
- (4) This indicator monitors travel times on key routes countywide. In previous years, the Traffic Congestion Management Indicators were the percentage of unincorporated area street intersections operating at acceptable levels of service during morning and afternoon peak hours. The random intersections were selected by Metro as a part of their Congestion Management Program and were not indicative of a measurement of congestion countywide. The Metro Program has since been eliminated.
- (5) The number of County-maintained trees in street and road rights-of-way is an approximation. The number of trees changes frequently due to tree deaths, tree removals, and tree replacements.

Land Use Application Processing is a local program relating to the implementation of zoning regulations adopted by the Los Angeles County (County) pursuant to State and federal enabling legislation. Zoning regulations are the mechanism by which the County's General Plan is carried forth. Zoning regulations are embodied in Title 22 of the County Code. Zoning of land and development standards constitute the County's use of its police power to ensure the proper distribution of land uses for the protection of public health, safety, and welfare. Because of their unique characteristics, certain uses require discretionary permitting which is accomplished through the filing of various types of permits. Other discretionary actions include changes of zoning and to the General Plan. Also includes implementation of subdivision regulations adopted by the County pursuant to State and federal enabling legislation. Subdivision regulations are embodied in Title 21 of the County Code and regulate the creation of lots or units for sale, lease or financing purposes.

Program Result: The timely processing of applications, both from the private and public sectors, results in confidence in the County's service delivery by project applicants as well as a healthy and robust economy for the County by allowing for a variety of land uses to serve the needs of all County residents. Appropriate review of those applications, including ensuring consistency with the County General Plan and other applicable provisions, allows for resolution of conflicts, protects the community from incompatible land uses, and protects existing natural resources wherever possible.

It is projected that zoning enforcement inspectors will attend on average 3 community meetings/outreach events per month during FY 2019-20.
- (3) The County-approved number of total working hours for staff in FY 2016-17, FY 2017-18, FY 2018-19, and FY 2019-20 were 1763, 1,743, 1,744 and 1,744 respectively. The number of hours of zoning enforcement inspectors for FY 2018-19 was multiplied by 33 which was the average number of zoning enforcement inspectors conducting inspections during this fiscal year. The projected number of hours of zoning enforcement inspectors for FY 2019-20 (1,744) was multiplied by the projected number of zoning enforcement inspectors which is 33.
- (4) Includes code enforcement inspections, permit inspections, and Mitigation Monitoring Inspections. For the first quarter of FY 2019-20, there were 3,150 enforcement inspections completed with an average of 1,050 per month. The average was multiplied by 12 (months) to obtain the number of enforcement inspections projected for FY 2019-20.
- (5) For FY 2018-19, there were 3,859 closed cases. This was divided by 33 which was the average number of zoning enforcement inspectors. For the first quarter of FY 2019-20, there were 815 closed cases for an average of 272 closed cases per month. The number of closed cases projected for FY 2019-20 is 3,264. This was divided by the number of zoning enforcement inspectors (33) projected for FY 2019-20 resulting in a projected 98 closed cases per inspector.

- (1) Fluctuations in data between fiscal years are due to the varying number of elections conducted in each fiscal year and also the type of elections provided (i.e., Presidential vs. Consolidated).
- (2) Fluctuations in percentages beginning in FY 2017-18 are due to schools and cities moving from odd-year to even-year elections.
- (3) Vote by Mail guides no longer being printed.

Comprised of both professional and sworn staff, the County Services Budget Unit's responsibilities include the following: oversight and monitoring of 68 client facilities wherein 65 of the facilities are provided weapons screening with metal screening devices; specialized law enforcement services at County-owned or operated hospitals, healthcare centers and properties; and law enforcement services at all 177 County parks, golf courses, and recreational areas that comprise the Los Angeles County Department of Parks and Recreation.

2. Court Services

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Court Services Budget Unit funds the Courts Services Division, which provides security services to the Superior Court, serves civil process papers throughout the County, and participates in the recovery of DNA from qualified inmates. The County's Superior Court system is the largest in the State with 463 judicial officers located in 38 different courthouses, which handles over 2.4 million filings each year. More than one-third of the 58,000 felony cases heard annually involve second or third-strike defendants. The Division's mission seeks to ensure a safe and secure environment for the public accessing the courts, employees, other personnel performing duties within the courts, and inmates appearing in court while in the custody of the Sheriff. The security services performed by the Division are funded by the State through the trial court security account which pays for sergeants, court bailiffs, lockup deputies, custody assistants, and perimeter security services.

Assembly Bill (AB) 1058 better known as the Child Support Commissioner Program (CSCP), require each superior court to provide sufficient child support commissioners to hear these cases, as specified, thereby imposing a State-mandated local program. The CSCP is federally funded through a Superior Court grant.

An additional service contract was negotiated with the Los Angeles Police Department (LAPD) to recover costs for conducting the release process of inmates from court which, in the past, LAPD personnel were accomplishing.

In 2011, AB 109 Parole revocation hearings were newly implemented. Parolees who committed a violation after September 30, 2011, will serve their revocation time in county jail instead of prison for up to 180 days. The responsibility of parole revocations for inmates released to County supervision shall be with the local courts. The responsibility of parole revocations for inmates released to the Division of Adult Operations' supervision will continue under the Board of Parole Hearings until July 1, 2013, at which time the entire parole revocation process shall be a local court-based process.

In addition to court security services, the Division is responsible for the service and enforcement of several hundred thousand pieces of civil and criminal process annually. This includes the seizure and sale of personal and real property, evictions, and the service of Temporary Restraining Orders (TRO) related to domestic violence.

Program Result: The Division ensures that people with business in County courthouses, including employees of the courthouse and in-custody inmates, experience a safe and secure environment. The Division's contract with the court is fulfilled when on-duty security personnel levels reach 98 percent of the contracted personnel levels on a daily basis. By fulfilling the contract, the Department avoids an overpayment situation wherein the Department would be required to reimburse the courts due to a lack of compliance. The Division's civil component served and executed court process, including the timely and efficient service of TROs which provides an increased level of security and safety to the public. Finally, the Department's contract with LAPD continues to provide funds which support additional personnel in the lockup facilities to ensure the proper release of LAPD new booking inmates.

3. Custody

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Custody Budget Unit provides funding for both the Custody Services Division's General Population and Specialized Programs. These two divisions are responsible for the County's jail system for the care, custody, security, and rehabilitation of all sentenced and pre-trial inmates housed within the Sheriff's Department jail facilities.

Program Result: The inmates and staff within jail facilities will be provided a safer environment by reducing assaults, minimizing disturbances, decreasing attempts to make jail-made weapons and alcohol (Pruno), and monitoring County property. Additionally, food and medical services are provided more effectively and efficiently.

Explanatory Note(s):

- (1) Statistical information was not available. Method for tracking statistics was being revamped.
- (2) Reported counts reflect actual cases counted by primary statistical codes. Counts do not include adjustments to previously reported crimes and may vary slightly from Uniform Crime Reports. These numbers reflect all Custody facilities, Court Services Division and Custody transportation. Information is time sensitive and subject to change upon further analysis.
- (3) A major inmate disturbance generally involves the majority of inmates in the affected area and disrupts normal operations to a large portion of the affected area. There may be serious injuries to inmates, and/or substantial damage to the facility. Significant direct officer intervention, which may include additional resources, is required to resume normal operations. A major disturbance may also require either a modified or full lockdown of the facility, based on the watch commander's discretion.
- (4) A minor inmate disturbance involves a group of inmates (three or more). It may disrupt normal operations in a localized area, have little impact on the rest of the facility, require direct officer intervention to resolve the incident, and normal operations resume quickly. A minor disturbance may result in injuries and minor damage to the facility. However, damage and injury are not required elements of a minor disturbance.
- (5) Numbers do not include miscellaneous felonies (former stat code 187 or Reporting Districts which correspond with Custody Investigative Services or Los Angeles County Medical Center). Numbers are higher compared to previous fiscal years due to an improved tracking system.
- (6) Refers to inmate housing locations.
- (7) Percentage release is at ten percent which depletes the number of participants to be placed in the program. Less fully sentenced inmates meet the criteria to enter this program (charges that qualify).
- (8) Data refers to round trip food deliveries to stations per day.
- (9) The monthly average inmate population is computed by taking the inmate population total, published daily by the Population Management Bureau, and averaging by the number of days in the month. Projected 2019-20 Average Daily Inmate Population is based on average of first three months of actual data (Jul-Sep).
- (10) Facilities count includes both DVTel and non-DVTel sites under the Custody Division only. DVTel, Inc. is a leader in software and hardware technologies for advanced video surveillance.
- (11) Count is for the Central Housing Unit South and Central Housing Unit North.
- (12) Title 15 Minimum Standards for Local Detention Facilities Manual. Safety checks shall be conducted at least hourly through direct visual observation of all inmates. There shall be no more than a 60-minute lapse between safety checks. There shall be a written plan that includes the documentation of routine safety checks.

4. Detective

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Detective Budget Unit funds the Detective Division which consists of seven bureaus: Fraud and Cyber Crimes, Homicide, Human Trafficking, Major Crimes, Narcotics, Special Victims, and Task Force for Regional Auto Theft Prevention. As of July 1, 2019, the Operation Safe Streets Bureau (OSSB) has been reassigned to the Detective Division and the LA Regional Human Trafficking Task Force is no longer a bureau and is now part of the Special Victims Bureau.

The Detective Division exists as a separate entity from station detective assignments. Investigators assigned to the Division are the most experienced and tenured criminal investigators of the Department. Major areas of expertise include homicides, human trafficking, narcotics, child abuse, financial (fraud), high tech crimes, auto theft, organized crime, and kidnapping.

The Division is responsible for the investigation of crimes, identification and apprehension of criminals, recovery of property, identification and preservation of evidence, and for assisting in the preparation of cases for court. The Division also, when requested, provides investigative resources to other law enforcement agencies throughout the County.

Program Result: Criminal offenders are convicted, sentenced to jail or prison, and their criminal assets seized.

6. Medical Services

Authority: Mandated program with discretionary service level – Sections 26600-26777 of California Government Code.

The Medical Services Budget Unit provided funding for health care services to all inmates housed within the Los Angeles County Sheriff's Department jail system. Services included physicians, nurses, dentists, pharmacies laboratories, radiology, and health information management services. It should be noted, all physicians and providers transitioned to the Department of Health Services/Correctional Health Services (DHS/CHS) on July 1, 2016, and all clinical and non-clinical medical staff transitioned to DHS/CHS on May 1, 2017. The Custody Budget Unit continues to provide security for all sentenced and pre-trial inmates housed within the Department's jail facilities while being transported and examined.
