

OCIO Transformative Build-Out Functions

Our OCIO team has been expanding and diversifying this year. This inspiring team has been wholeheartedly pushing forward our OCIO mission, goals and values through the build out of our own transformative functions.

- Portfolio Management
- Strategic Planning
- Enterprise Architecture
- External IT Leadership

- IT Governance
- IT Policy & Standards
- Project Management Center of Excellence

- Strategic IT Consulting Services
- Security Program
- Information Management Program
- Innovation Program
- Communications

Created by OCIO

LA County Beaches & Harbors Partnership

Office of the Chief Information Officer (OCIO) has partnered with Beaches and Harbor for an important strategic planning collaboration. We customized a dynamic strategic workshop encouraging everyone to think boldly and explore innovative solutions to solving their never-ending parking challenges.

The premise of the workshop was to think strategically, generating ideas and then prioritize those into themes to see where technology can support those ideas into becoming tangible solutions.

Bill Kehoe kicked off the successful workshop by highlighting how we will facilitate this event and stay with Beaches & Harbor until the vision is accomplished. "Look at the OCIO as the strategic arm for envisioning the future and enabling technology to do that." - Bill Kehoe.

Industry Meet & Greets

Many LA County departments including our Office of the CIO's Deputy Chief Information Officer, Jagjit Dhaliwal presented to vendors at Techwire's Quarterly Vendor Briefing.

This was a great event to openly discuss LA County's multiple accomplishments, partnership goals, and highlight how we would like vendors to help Digital Transformation in LA County forward!
