

Project RoomKey

LA County's Project RoomKey is providing temporary housing to seniors and medically vulnerable people experiencing homelessness. Project RoomKey is keeping 3,739 vulnerable people off the streets and helping to prevent the spread of COVID-19.

Max Stevens & Andy Perry from the Office of the CIO assisted the Homeless Initiative in planning to ensure that older adults housed by Project RoomKey transition to permanent housing after the project's completion.

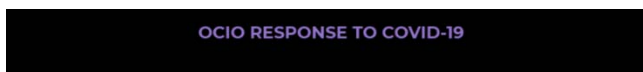

2020 Digital County Survey Submission

In 2019 we got 2nd place in the annual Digital County Survey and in 2020 our goal is to get 1st place! Even though we had to complete this year's submission remotely due to COVID-19, our application didn't falter because of the amazing work being accomplished in LA County.

Thanks to our mobility efforts we were able to work cohesively with various departments to really enhance our 2020 application. A special thanks to the OCIO's Rachel Bryant and Jennifer Nuno for spearheading this effort, to our OCIO team for taking the lead, and to all the LA County departments that participated in helping LA County be recognized as a top Digital County in the country.

OCIO Response to Covid19

The Office of the Chief Information Officer's team is diligently assisting LA County in providing support to various departments, our employees, and our community during this pandemic.

Deployment as Contact Tracers
Jennifer Nuno & Mark Criminger are working as Disaster Service Workers (DSW). During emergency events, County employees may be called to act to better meet the needs of the community and ensure the continuity of essential services.

Community Resources
LA County is committed to keeping our community informed about the latest news in regards to COVID-19 and providing easy access to various types of assistance.

LA County Responsible Reopening
County CIO Bill Kehoe served alongside Internal Services Department to develop a framework to be utilized by County departments as guidance to safely reopen County buildings to the public once the County was able to successfully "flatten the curve."

Telework Readiness Report
County CIO Bill Kehoe developed a telework readiness report for the Board of Supervisors.

OCIO is always updating our website to make sure LA County departments and our communities have a clear understanding of the efforts we are working on in response to COVID-19.

Please visit our website, <https://ceo.lacounty.gov/chief-information-office/> to learn more about the multiple projects that OCIO is assisting LA County with.
