

Digital Divide Regional Strategy Website Updates

The Office of the CIO (OCIO) has updated the Digital Divide Regional Strategy website to include district focused initiatives and their respective roadmaps. A variety of resources were also added which include, service offerings, data storyboards and all the Board motions and responses about the Digital Divide.

To get more information visit our Digital Divide Regional Strategy website, <https://ceo.lacounty.gov/cio-digital-divide/>

The screenshot displays the website's layout. At the top, there's a 'First District' list including East Los Angeles, Boyle Heights / Lincoln Park, Washington Park, El Monte / South El Monte, and San Gabriel / San Puente. Below this is a map of LA County with districts highlighted. The 'Low-Cost Service Offerings for County Residents' section features a blue header and text about partnerships with EveryOnetv, a non-profit organization, and the California Emerging Technology Fund. A 'Data StoryBoard' section is also visible, with a 'View Data StoryBoard' button.

2021 Government Experience Awards

The Center for Digital Government 2021 Government Experience Awards had officially been released. The awards recognize the achievements and best practices of states, cities, and counties that are radically improving the experience of government and pushing the boundaries of how citizen services are delivered.

Los Angeles County (County) was a 2021 finalist for the Overall Government Experience Awards. The County is also awarded the Government Experience Awards for the COVID-19 Response, DFH Emergency App Suite, Robotic Process Automation, and DPSS Portal Website.

2021 Data Con LA

The graphic has a light beige background. It features the OCIO logo in the top left corner. The text reads: 'Did You Know? OCIO's Chief Enterprise Architect, Terrence Davis will be presenting "Building a Data Infrastructure for Large Municipal Government" at the 2021 virtual Data Con LA on September 17th! Learn more about Data Con 2021 here, https://www.dataconla.com/'. There is also a 'DATA CON LA' logo at the bottom left.

OCIO's Chief Enterprise Architect, Terence Davis presented at the 2021 Data Con LA. He presented on, 'Building a Data Infrastructure for Large Municipal Government'. He discussed the County's Information Hub, it's past, present, and future and how the OCIO uses it to turn data into actionable information.

Don't worry if you missed the live event because this year's Data Con LA recording is uploaded here, [Data Con LA](#).
